PROFESSIONAL SUMMARY

Software Engineering student with expertise in Full-Stack Development and Cloud Computing. Oracle Certified Generative AI Professional with hands-on AWS experience. Passionate about building scalable, impactful solutions using Python, Java, JavaScript, and modern cloud technologies.

EDUCATION

Malla Reddy Institute of Technology and Sciences
Bachelor of Technology in Computer Science – GPA: 8.2/10

Hyderabad, India
Aug 2023 – May 2027

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML5, CSS3, SQL
Frontend Technologies: React.js, Bootstrap, Responsive Web Design, DOM Manipulation
Backend Technologies: Node.js, Express.js, RESTful APIs, Server-Side Programming
Databases: MySQL, MongoDB, Database Design, Query Optimization
Cloud & DevOps: AWS (EC2, S3, Lambda, RDS), Azure (Fundamentals), Docker, CI/CD
Tools & Frameworks: Git, GitHub, VS Code, Linux, Agile/Scrum, Data Structures & Algorithms

PROJECTS

- Full-Stack E-Commerce Platform** | *React.js, Node.js, Express, MongoDB, AWS* 2024
- Built responsive e-commerce application with secure JWT authentication, product catalog, shopping cart, and order management
 - Deployed on AWS EC2 with MongoDB Atlas and S3, optimizing performance to achieve 40% faster page load times
- Cloud-Based File Storage System** | *AWS (S3, Lambda, RDS), Python, REST APIs* 2024
- Designed serverless file storage using AWS S3, Lambda, and RDS with secure authentication and role-based authorization
 - Developed RESTful APIs for file operations; optimized queries with Redis caching, reducing response time by 60%
- Real-Time Chat Application** | *Node.js, Socket.io, React, MongoDB, Docker* 2024
- Created real-time messaging platform with WebSocket protocol supporting private/group chats and typing indicators
 - Built responsive UI with React and Bootstrap; containerized with Docker for scalable deployment
- ML Price Prediction System** | *Python, Scikit-learn, Flask, Pandas* 2023
- Developed price prediction model with 85% accuracy using scikit-learn; deployed as Flask REST API with sub-200ms response
 - Performed data cleaning and feature engineering; created visualizations with Matplotlib for stakeholder insights

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Build Your Own Static & Responsive Website — Technical English for Engineers

ACHIEVEMENTS & LEADERSHIP

Solved 100+ LeetCode problems in data structures and algorithms; contributed to 50+ open-source projects on GitHub

Led technical workshop on Cloud Computing for 50+ students; participated in multiple hackathons including Smart India Hackathon
